CLASS PRE-WORK:

- If you are using yardage, cut the width of the fabric into 2½" strips. You need four strips of each print.
- For both Jelly Roll and yardage, cut each strip in half cross wise. You should now have strips that are 2½" by approximately 21".
- **BACKGROUND fabric:** Pre-cut the background fabric into triangles and rectangles according to step #1 and #2 of the cutting instructions for background fabric on page 1 of the pattern. A dozen or so of each of these pieces is enough for the class. (Setting Triangles do not need to be cut yet.)
